

MAYOR TAYLOR AS SECRETARY OF PROMOTION BOARD

Movement Quietly Initiated To Name New Executive Comes To Top At Monthly Meeting.

ACTION POSTPONED UNTIL NEXT MONTH

Friends of Incumbent On Committee Will Fight Vigorously Any Attempt To Replace Him

A movement to oust A. P. Taylor from his office as secretary of the promotion committee has developed with in the committee, it became apparent yesterday at the monthly meeting of the promotion body and through statements made later by members of the committee. No action was taken, the matter being put over until the next monthly meeting, when it is expected that a secretary will be appointed.

It has been known for some time that some members of the committee wanted to replace Taylor with another man and that quiet work was being done to oust him, but it was not until yesterday that the matter got out into the open—and then it was quickly covered up.

Secretary Taylor, however, has strong friends among the membership of the promotion body, and they do not intend to see him dropped without putting up a fight for him. Mr. Taylor himself appears aware of the sentiment against him on the part of some members of the committee, as he stated last night in response to a telephone query that failure to select a secretary yesterday was due merely to the fact that the committee has not yet been reorganized for the year, the members for the outside islands not having been appointed. Both Worth Aiken, representing Maui, and G. H. Vears, representing the Big Island, are hold-overs and must either be reappointed or their successors named.

Possibilities Mentioned

If any of the members are backing some particular person other than A. P. Taylor for the secretaryship, they are not talking about it. E. W. de Vis Norton, Hawaii county publicity agent, has been mentioned, but it is stated that he does not desire and would not accept the appointment. Ed Towse, a member of the promotion committee, said last night that he had heard that some of the members favored the appointment of Phil Dunsky, assistant secretary.

The postponement of the selection of a secretary was carried as though it had been agreed upon. Just before the adjournment, which was taken hurriedly so that George H. Angus could depart to catch a steamer for Kauai, Chairman Berndt said that the question of the appointment of a secretary which had been carried over, was before the committee.

G. H. Vears, Hawaii member of the committee, smilingly moved that it go over for another meeting.

Mr. Berndt said whether there was any objection and whether the men voted facing him. No objection, Mr. Berndt thereupon announced that unanimous consent had been given; then, looking at Ed Towse, said:

"Have you any objection? I didn't ask you."

"I have no objection," said Mr. Towse, "but before you announce unanimous consent you should make sure that there is no objection."

This was said with a smile, however. The members of the committee and Mr. Taylor remained in the room after the adjournment and the departure of Mr. Angus.

Some Members Consider Change

Following the meeting Worth O. Aiken, the Maui member of the promotion committee, admitted that the possibility of a change in secretaryship had been considered by some of the members. He said that when the matter came up at the meeting there was no dissent to the motion that the selection of a secretary go over. He added that there would be another general meeting of the committee, or "rally," next month and that it is probable some action might be taken.

"I consider Mr. Taylor an excellent newspaper man and publicity getter but he does not measure up to my idea of our needs as a publicity capacity in the office," said Mr. Aiken. "Whether we could, with the limited means at our disposal, secure a man who would have the ability it is admitted Mr. Taylor has in certain directions and at the same time have the executive capacity that is desirable, I do not know. If we had money to spend as they have in Southern California it would be a different matter but we are limited in our finances and have to limit our expenditures to our means. Whether there will be any change I cannot say."

Asked if L. W. de Vis Norton were being considered as a possibility for the secretaryship, Mr. Aiken said he had been informed by another member of the committee that Mr. Norton did not desire and would not accept an appointment to the office.

SMALL BLAZES RESULT IN BUT LIGHT DAMAGE

There were two small fires in the city yesterday, one at about four-thirty in the afternoon and the other at nine-thirty at night. The first was in the "rattle" numbers on the old William Wilder place in Pensacola Street, the damage amounting to about twenty-five dollars. The second fire was at a Japanese home in King Street, near Dowsett Lane, Palama, the damage being estimated at about forty dollars.

WOMEN SUGGEST EXCELLENT IDEAS

Food Economies Are Suggested At First Meeting and Propaganda Will Be Urged

Definite proposals for the conservation of food in the islands, which, if put into general operation, will have a noticeable effect on the food economy when it met with Chairman James B. Dole and Executive A. L. Dean of the commission yesterday. The more fully these suggestions are adopted by the commission, the more will the situation be clarified, and the committee will have for one of its problems the spreading of the saving propaganda.

Use of Hawaiian products as far as possible will be urged by the committee. This will include giving a preference to home-grown potatoes, onions and other vegetables over the imported, and a use of other home-grown vegetables from the mainland. It will establish a market for the island-grown and will keep at home money that is now expended in the States. The utilization of every scrap of food that can be used and from the table come as a part of this proposal not to serve unduly large portions and to eliminate so far as possible the garbage can.

Reduction in the amount of meat used is a second suggestion. Assuming that fifty per cent of the population are beef eaters, the housewife will be asked to cut the consumption of beef by a quarter of a pound a week for each person. In most families this can be readily done. With such curtailment it is thought that it would be unnecessary to import beef and the islands' supply would be adequate. Less meat and butter, formerly used in large quantities, since this would cause an import cut in imports. Mixing of meat with flour in breadmaking may be termed a part of the food-economy proposal, since it is wheat that is especially needed to help feed the Allies and it is this crop that is short.

Another meeting of the committee is expected within the next few days. To Consider Rice Prices

Prices of rice will be discussed at the next meeting of the food commission, which is expected to be held today. There has been complaint as to the fluctuation of prices for this commodity, which is so important to the large portion of the population. This has been especially so with Japanese rice, it is claimed. Doctor Dean has investigated this subject quite extensively and can render a report of his findings to the commission. There has been an advance of about \$1 a hundred on rice since the war began, and higher freight rates are also given as a contributing cause to the higher prices. Japanese rice can be imported cheaper than the grain can be raised here, and is now about fifty cents a hundred lower.

Higher cost of labor here accounts for this. The food commission has no control over freight rates.

The county agent reports that there is more rice being planted here now than for a number of years and that this will have a tendency to relieve the rice shortage that has existed, though it is admitted that Hawaii cannot compete with Japan in rice-growing so far as costs of production go.

Further discussion of the fish industry of the islands is expected to come up at the meeting. There has been one report rendered on this subject, but it was rather of a preliminary report. Chairman Charles G. Becker of that committee says there has been considerable work done in the way of investigating and that it is being continued. The scope for investigation is a wide one and it will take time to obtain all the data needed for a conclusive report.

A. W. Neely has been assigned to this committee in place of the late A. K. Oshida.

PAYMENTS ON BONDS ARE SENT TO COAST

Mail of Yesterday Carries Third Instalment For Patriotic Loan

Though not due at the federal reserve bank until July 30, the third payment of thirty per cent on Liberty Loan Bonds subscriptions left in yesterday's mail, since it was the last despatch which would reach the mainland in time to meet the required payment. Reports from the various banks say that payments are coming in well since publicity was given to the fact that the banks were carrying those who were behind and should not be asked to do so. Fully fifty per cent of those who had been behind are now paid up and the other fifty per cent are falling in line regularly when reminder that payments have been made for them.

Advices from the mainland tell of the proportions in which awards are being made. Up to \$10,000 the award is in full of the subscription; over \$10,000 and to \$100,000 the award is sixty per cent; over \$100,000 and up to \$250,000, forty-five per cent; over \$250,000 and to \$500,000, thirty per cent; over \$500,000 and up to \$600,000, twenty-five per cent and \$600,000 to \$1,000,000, twenty-one per cent.

FORBES NO LONGER HEADS COMMISSION

Forgot To Resign But Finally Quits By Radiogram

In the rush of resigning from his many public offices when he left the territory, Charles R. Forbes forgot the chairmanship of the public utilities commission and continued to be the head of that body until he formally withdrew from the position by radiogram. The cost of the message from San Francisco was refunded to Major Forbes by Governor Plakham who sent the bill for \$2.25 to the public utilities commission.

Yesterday the commission ordered the bill paid.

Forbes declared his intention of resigning "out" his resignation several months ago as soon "as he could find time." Later the announcement was made that an undated resignation was in the Governor's hands. But on June 22, the rumor of Forbes' resignation was confirmed by a thirteen word radiogram from San Francisco.

Forbes declared his intention of resigning "out" his resignation several months ago as soon "as he could find time." Later the announcement was made that an undated resignation was in the Governor's hands. But on June 22, the rumor of Forbes' resignation was confirmed by a thirteen word radiogram from San Francisco.

COMMISSION PLANS CLOSER WATCH ON PUBLIC UTILITIES

Appoints H. Gooding Field Permanent Auditor and Will Hereafter Require Regular Audits and Reports On Corporations

Marking a new era in the control of public service corporations by the public utility commission, the employment of a permanent auditor for that body, at a salary of \$250 a month was announced yesterday.

H. Gooding Field, who acted as auditor for the commission in the territorial days and other cases has been appointed to the newly created position.

W. T. Carden, chairman of the commission, in announcing Field's appointment, said that the move marked the beginning of a revolutionizing of the commission's conduct of its business.

Hereafter, he said, periodic audits of the public utility corporations will be made. He stated:

"It will prove cheaper, more convenient and more expeditious for the commission to have a permanent auditor instead of hiring one at a temporary and higher salary each time an audit was made."

Hereafter periodic audits will be made of all corporations subject to his commission's regulation.

The plan to revolutionize the commission's conduct of its business, the work will be standardized, as will the regulation of corporations, and rules and regulations will be made that will bring it in line with more regularity and uniformity in the commission's work, making things more convenient for both the commission and the public utilities.

One of the first steps will be the issuance of a uniform system of accounts in order to secure standardization of accounting methods for utility corporations. A start has been made in this direction in the establishment of standard system of accounts for telephone companies.

Among other features that will be standardized by the commission will be that of the rendering of reports by the utilities.

Yesterday the secretary of the commission was instructed to ascertain the dates on which all utilities close their books and the dates on which they now render annual statements to the commission.

At the same time reminders will be sent to corporations subject to the commission's control that not only are reports due from many for the fiscal year 1916-1917, but that many have failed to supply the commission with annual reports for the calendar year 1916.

There are a number of corporations which have either not been investigated by the commission or have been given merely perfunctory investigation, stated Commissioner Carden, and it is intended to complete this work as soon as possible. Hereafter, it is intended, regular audits and reports on all corporations will be required.

It is expected that the Honolulu Rapid Transit & Land Company will be among the first to fall under the inquisitorial eye of the commission under the new regime. Yesterday, the commission decided to audit the company that by Act 65 of the Session Laws of 1915, it was required to send its quarterly trial balance report to the commission instead of to the superintendent of public works. Reports of this character since December 1914 will be requested of the company.

Commissioner Carden pointed out that this was the first move of a general investigation of the company but admitted that such a probe would be taken up later.

"We have to get the Inter-Island case off our hands first," said Carden.

SEED BEANS WANTED FOR KAUAI PLANTING

A wireless message came to the food commission yesterday from A. H. Case, its agent on Kauai, asking immediate shipment to him of three hundred pounds of the seed beans which it has just imported from the Coast. As announced in The Advertiser yesterday morning, the commission has brought two tons of seed beans of five varieties, to Hawaii for the big bean-growing campaign it plans in the islands.

By yesterday's boat 150 pounds of cow peas also were forwarded to the Kauai agent, who is asking for another 150 pounds to be sent just as soon as the commission can obtain them. Doctor Dean, executive officer, thinks it possible the peas may be supplied by the agent on Maui.

SALOONS TO CLOSE REGISTRATION DAY

Forestall Action of License Board Which Intended To Place Tabu On Sale of Booze

Registration Day will be a holiday for the saloons as well as all other places of business in the Territory, information that the saloon keepers had volunteered to close their places was received by the central registration board yesterday afternoon, at an informal meeting which was held in the Capital. A list in being circulated by the saloon men to secure signature to their proposal and it is believed that every man will sign.

This action of the saloon men forestalls the intended move of the central board and the license commission, both of which have been laying plans to close the saloons. Will Wayne, chairman of the central board held a conference with Richard Cooke, of the license commission yesterday morning, and it was then decided that Wayne should write to the commission requesting that the saloons be kept closed on Registration Day. The understanding is that the request of the central board would be immediately complied with.

Another feature of the meeting was the announcement that Emil A. Berndt, chairman of the Republican territorial central committee, had advised various members of the executive committee in different districts of the Territory to take up the question of close cooperation with the board on Registration Day. This step was taken by Mr. Berndt in the belief that the party machinery is well fitted for the work of bringing home to every male resident of the islands the necessity of going out and registering on July 31.

The board yesterday announced the following list of official registrars for the Territory, as approved by the Governor. The list for Oahu is not yet complete:

Island of Kauai

First precinct—John Rennie.

Second precinct—E. A. Knudsen, F. H. Asner, Kikhi Karamoto, Kiani Kilian, J. D. Cook.

Third precinct—C. B. Horganard, Chang Yau, E. Yamase, W. H. Wright, Jr., J. P. Kahalaum.

Fourth precinct—G. P. Rankin, J. K. Bugeese, Joe Gomez, H. C. Brown.

Fifth precinct—K. Roendahl, M. R. Jardin, C. F. Loomis, J. D. Kehau.

Sixth precinct—J. K. Farley, J. K. Cockert, W. K. Walealele, D. K. Kapehu.

Seventh precinct—C. A. Rice, P. L. Rice, A. G. Kaulukou, C. Maier, J. L. Riorth, W. C. Avery, J. A. Souza.

Eighth precinct—C. B. Gray, N. W. Meheula, Von Kheleka, J. F. Bettenbrecht, Jr., George Ewaliko.

Ninth precinct—H. Hadfield, E. M. Maske, J. L. Rudy.

Tenth precinct—Wm. Werner, Ahau Hen.

Island of Hawaii

First precinct—W. J. Stone.

Second precinct—H. J. Lyman.

Third precinct—Chas. Weatherbee, Daniel Kaloi, George Mondon.

Fourth precinct—C. P. Ekhardt, A. J. Watt, Teves, F. Sakamaki.

Fifth precinct—Huge Watt, Sim McConzie, T. P. Gray, Okeali.

Sixth precinct—D. McEl Forbes, A. M. Wilson, B. M. Lindsay, G. K. Lowe.

Seventh precinct—W. K. Ragdale, M. S. Cordeiro, H. M. Leonard, B. Wilkerson, J. R. Shaki.

Eighth precinct—J. H. Leonard, J. K. Akau, E. Vieira, J. K. Man, Geo. Lawson, F. Arakawa, H. L. Ross, C. H. W. Hitecheek.

Ninth precinct—J. A. Scott, W. H. Baiding, A. H. Scott, Chas. Shaw, W. Pacheco, Manaki Sumai, A. Pavesa.

Tenth precinct—J. T. Moir, V. A. Chastain, Ed. Campbell, E. Smith, Soichi Tanaka, M. Arru.

Eleventh precinct—Forest Hill, A. Fred P. Martin, E. L. Kevan, M. N. Souza, K. Shishido, William Keluini.

Twelfth precinct—Wm. Pullat, D. G. Buchark, A. Spalung, K. Ishi, Tohiro Kuritani, D. Kahani, M. Tavekes.

Thirteenth precinct—J. M. Ross, J. M. Muir, W. B. Marshall, W. Ross, J. K. Nagashi, J. Pagan, Joe Moiz, K. W. Kinney.

Fifteenth precinct—J. M. Janie, J. H. Haeh, H. Fraser, J. Laik, A. Yamagata, L. Cadipha.

Sixteenth precinct—A. J. Igenito, D. Vieira, M. Chalmers, Dan Polakani, W. Louso.

Seventeenth precinct—R. A. Hatch, Wm. J. Francis, W. McKendall, Y. Manalaga.

Eighteenth precinct—A. L. Moses, F. Malua, D. Branca, B. Makai.

Nineteenth precinct—J. Makulua, T. Takamaki, K. Mylinot.

Twenty-first precinct—T. D. Collins, F. Parato, J. K. Nalley, A. L. Louis, L. Wilms.

Twenty-second precinct—E. M. A. Lessor, J. C. Jamieson, H. J. Westley, F. W. Murphy, Rus Malina, Arai Manuel de Colla.

Twenty-third precinct—W. P. Naquin, J. P. Pichard, J. J. Pavao, J. K. Kaelona, Mafumani.

Twenty-fourth precinct—Robert H. Smith, Sol. C. Burke, W. N. Hattie, N. Iino, Hanakoa, J. Manak.

Second District

First precinct—H. L. Holstein, E. K. Aikua, G. P. Tulloch, J. Japanese.

Second precinct—H. Huid, S. Sa, A. J. McDougal, J. A. Wright, H. M. Sionakoua.

Third precinct—W. M. S. Lindsay.

Fourth precinct—E. M. Muller, J. N. Koumou.

Fifth precinct—M. M. Spencer, T. Kono, A. Aho, Wm. M. McQuaid.

Sixth precinct—T. C. White, H. L. Kawewehi, J. N. Koumou, Ohamura.

Seventh precinct—W. B. McKillop, J. A. Luis, J. G. Marchado, T. Oka.

Eighth precinct—L. P. Lincoln, T. N. Hane, A. Hu.

Ninth precinct—R. A. McWayne, D. K. Kapiuka.

Tenth precinct—W. H. Hayzelden, H. Forest, B. Apple, G. Kono.

Eleventh precinct—J. Campsie, A. Patten, H. B. Leck, G. W. Matthias.

Twelfth precinct—A. C. Knapu.

CRAMP COLIC.

No need of suffering from cramps in the stomach, or intestinal pains, Chamberlain's Colic, Cholera and Diarrhoea Remedy never fails to relieve the most severe cases. Get it today! The bill which had been passed by the senate was "sugar controlled" while the house "represented the wishes of the people."

CRAMP COLIC.

No need of suffering from cramps in the stomach, or intestinal pains, Chamberlain's Colic, Cholera and Diarrhoea Remedy never fails to relieve the most severe cases. Get it today! The bill which had been passed by the senate was "sugar controlled" while the house "represented the wishes of the people."

LANAI TO SUPPORT INCREASES IN HERDS

Owners Systematically Prepare For Greater Food Supply and Additions Will Be Normal

Preparations for increased herds of cattle on Lanai are going steadily ahead under the direction of F. P. and H. A. Baldwin, who acquired the island last March from the Lualaba Company, Ltd., for a price that approximated \$600,000. Those preparations look to a steady and systematic increase of the herds and not to an immediate stocking on a large scale. It is understood, also, that the sheep will be gradually disposed of and the entire range given over to cattle.

At the present time large parts of the island of Lanai are being plowed and planted to succulent grasses to increase materially the ranging facilities and to insure ample food for the increasing stock. Two tractors are being used and a number of plows, and a great acreage is thus being prepared and planted. Corn is also being planted extensively and winter facilities are being developed.

There are said to be three requisites for successful cattle raising—sufficient food, the right sort of stock and efficient methods. The two latter requisites the present owners have. The stock on the island is good and it is not deemed necessary to import new blooded stock to improve it. The owners are experienced in the business and have studied efficiency in methods. The cattle they are now developing and this they are doing with a view to permanency of supply.

It is said that the sheep, of which there are reported to be several thousand on the island, will ultimately be disposed of, since the owners do not consider Lanai well adapted for sheep growing. The climate is too warm in most sections of the island, it is claimed, and there are few places in the Territory where they are found profitable enough for extensive raising, these being chiefly on the cool slopes of Haleakala.

Supervisors Take Steps To Appropriate Funds For Preliminary Survey

Ten thousand dollars for a preliminary survey of the new belt road on the windward side and \$21,300 for new cast iron water pipe were appropriated at first reading by the supervisors last night without debate.

Chairman Arnold explained that the survey will carry a payroll of \$6000 for the three months it will take to make it, that instruments must be bought and that the balance left for accidents and contingencies was really nothing.

On the strength of this explanation a resolution appropriating the money was passed on first reading but not ordered to print.

Harry Murray asked for 11,990 feet of cast iron water pipe with which to relay old mains in the downtown areas to be replaced within the next six months. It was imperative, he said, to buy now, since the market is going up every day.

Similar action was taken on his request.

AYER GETS ASSISTANT

Dr. R. G. Ayer, Emergency Hospital physician, notified the supervisors last night that he has appointed M. P. Meyers, a competent first aid man, as his second assistant. The board ratified the appointment and passed on first reading a resolution fixing Meyers' salary at \$100 a month, beginning July first.

Neglecting Your Health?

When everybody lived outdoors kidney diseases were unknown. Lungs, skin and kidneys worked together to keep the blood fresh and pure. Now, today the thinkers, the writers, the store and office employees, the housewives and other indoor workers get too little fresh air, exercise, rest and sleep. The kidneys weaken. Backache, headache, nervousness, rheumatism and urinary disorders become daily trials. Neglect causes many a fatal case of Bright's disease. Don't delay. Use Doan's Backache Kidney Pills. "When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy—ask distinctly for Doan's Backache Kidney Pills and take no other. Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50c a box (six boxes \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., or Benson Smith & Co., agents for the Hawaiian Islands. ANYO MARU FREIGHT

With five hundred tons of nitrates on board for local fertilizer factories, the T. K. R. South American liner Anyo Maru is expected here from San Francisco on July 29, a week from next Sunday. The vessel is expected to spend the night in port sailing the following day for Yokohama and Orient ports.

SURVIVORS OF SUBMARINE OUTRAGE ARE SAFE IN PORT

(Associated Press By U. S. Naval Communication Service)

AN ATLANTIC PORT, July 17.—The two survivors of the British steamer Delany, sunk by a submarine, arrived at this port today. They were rescued in a lifeboat.

COLLEGE GRADUATES WANTED BY NAVY

Until further notice, says the most recent civil service bulletin, and on account of the urgent needs of the service, applications for mechanical positions in three different grades in the navy department will be received at any time. The examinations are being rushed and the qualifying men passed as soon as possible. Applicants can be secured in Washington, or at any navy yard where the work is needed. The bulletin says:

"The inspecting experience must have been in connection with the pumping plant, power plant, heating, and ventilating equipment. Competitors who fail to attain a rating of at least seventy per cent under the subject of experience will not be considered for appointment. In raising this subject the degree of difficulty and importance of the work performed, the length of experience, and the rating which the applicant has had as superintendent, inspector or workman will be considered. Statements as to education, training, and experience are accepted subject to verification."

Applicants must have reached their twenty-first birthday on the date of making oath to the application. The register of eligibles will be divided into three grades, the compensation and minimum requirements for each grade being as follows:

Grade 1, \$3.52 to \$4 Per Diem—Applicants must have the training and experience specified in one of the following groups: (a) Graduation from a college of recognized standing, with one year's inspection experience in power plant or ventilating work, etc. (b) Mechanical engineer by graduation from a technical school or college of recognized standing, with one year's inspection experience in power plant, heating, and ventilating work, etc. (c) Three years' engineering experience in power plant, heating, and ventilating work, and two of which must have been inspection.

Grade 2, \$4.34 to \$5.04 Per Diem—Applicants must have the training and experience specified in one of the following groups: (a) Graduation from a college of recognized standing, with three years' engineering, including two years' inspection experience in power plant, heating, and ventilating work. (b) Mechanical engineer by graduation from a technical school or college of recognized standing, with one year's inspection experience, with one year's inspection experience in power plant, heating, and ventilating work, two years of which must have been inspection in field.

Grade 3, \$5.28 to \$6 Per Diem—Applicants must have the training and experience specified in one of the following groups: (a) Graduation from a college of recognized standing, with six years' engineering, including four years' experience in inspection of machinery in power plant, heating, and ventilating work. (b) Mechanical engineer by graduation from a technical school or college of recognized standing, with four years' experience in inspection of installations. (c) Eight years' engineering, including two years' experience in inspection of machinery in power plant, heating, and ventilating work, four years of which must have been in inspection.

Light travel still prevails from Australia, the Oceanic liner Sonoma arriving yesterday morning from Sydney and Pago Pago, with only a minimum first cabin passengers on board. Twenty-seven left on the vessel from Honolulu.

Among the passengers is Lieutenant R. H. Kayvett of the Fifty-First Battalion of the Australian force. He is returning to France for active service after being invalided home with severe wounds received while on a night scouting expedition back of the German trenches in France. The explosion of a bomb gave him twenty wounds in spite of which he crawled back to his own lines. He is a survivor of the Gallipoli campaign, through which he fought without receiving a scratch. He enlisted as a private and has gained his commission.

Among the other passengers on the vessel are E. T. Wedell, Australian sales manager of the Buick and Overland cars; M. J. Shener, representative of the largest Artificial Limb Co. of Kansas City; W. F. Wierman, an American chemical engineer for two years with a Tasmanian copper company and several other American business men.

Only two passengers left the vessel here Misses Ema Keaton and Elsie Merridith, of Samoa, coming to enter school here.

ANYO MARU FREIGHT

With five hundred tons of nitrates on board for local fertilizer factories, the T. K. R. South American liner Anyo Maru is expected here from San Francisco on July 29, a week from next Sunday. The vessel is expected to spend the night in port sailing the following day for Yokohama and Orient ports.
